

Inawisdom are an exciting and growing Data Science and Machine Learning Consultancy, based in Ipswich, with offices in The City and in Holland, with clients worldwide. As an AWS Premier Partner, and as AWS's A.I. and M.L. Partner of the Year 2020, we feel we are extremely well positioned at the forefront of this exciting and cutting edge technology space.

As a Data Consultancy, we provide E2E solutions to our customers. We assist with the preparatory process for the Data Science journey, the analysis, algorithm work and predictions themselves (or consultation there-on), the engineering required to host Machine Learning models in a production environment, or the development of applications and visualisations to ensure the results reach the right business user, Inawisdom are a proven leader in this field.

Due to sustained growth and increased demand from our customers, we are looking to employ additional Engagement Managers to manage the engagements with our customers.

- **Centre of Excellence**
 - Engagement Management
- **Responsibilities**
 - Utilising and enhancing estimating models to inform production of a viable plan
 - Planning engagements with input from Delivery colleagues and according to the commercials shaped by Sales colleagues
